## GOVERNMENT GUIDELINES TO CHEMICAL INDUSTRIES

- The rising number of air pollutants in the environment is concerning, causing the Government to take strict measures on daily monitoring and controlling.
- The Central & State Government Pollution Board has made it mandatory to display pollution parameters in all industries likely to emit pollutants into the atmosphere.
- As per Govt. guidelines the Companies are expected to display parameters like CO, Pb, NH<sub>3</sub>, No<sub>2</sub>, SO<sub>2</sub>, PM<sub>2.5</sub> etc. at the Company gate on aboard of 4ft height and 6ft width.

## ABOUT PRODUCT

- Pollution Parameter Displays are used along with AQM systems or dust monitoring sensors or are also available with built in sensors. These sensors are designed for outdoor installations for sensing above parameters.
- These displays are used outside the plants for showing the pollution level in the ambient air due to plant exhausts, in construction sites showing dust concentration in the ambient air and in cities and towns for monitoring air pollution.

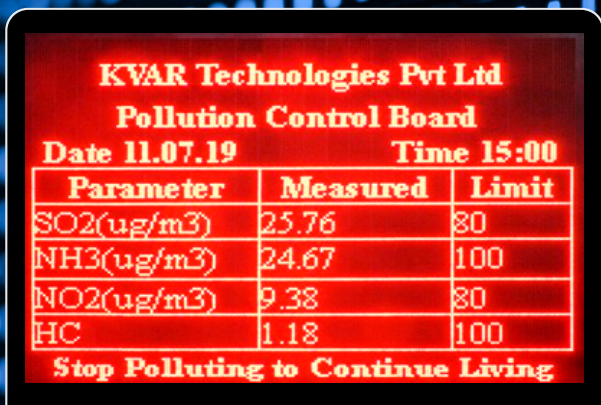

## FEATURES

- ✓ Outdoor Display
- ✓ P10 type single side LED Display.
- ✓ Red Colour
- ✓ Input through PC with Ethernet Interface
- ✓ Static and Scrolling Display
- ✓ MS Weatherproof cabinet with canopy
- ✓ IP65 rating
- ✓ Numeric / Alphanumeric Displays

- AIR QUALITY MONITORING DISPLAY
- POLLUTION MONITORING DISPLAY
- STACK MONITORING DISPLAY

• POLLUTION PARAMETER DISPLAY
